Education

Indian Institute of Technology (Indian School of Mines), Dhanbad

Expected May 2027

Bachelor of Technology in Computer Science and Engineering (GPA: 8.29 / 10.00)

Dhanbad, Jharkhand

- **Relevant Coursework:** Data Structures and Algorithms (C++), Database Management System, Compiler Design, Computer Organization, Computer Architecture, Operating Systems.

Experience

Google | Software Engineer Intern

May 2026 – July 2026

- Engineered a new linting rule and automated batch validation pipeline in Java and TypeScript to detect structural errors across cloud contract templates.
- Enhanced core template management interfaces by developing a responsive document comparison dialog box, a read/write mode selector for gDoc, and an embedded AI assistant chat widget.
- Contributed 7,350+ lines of production code across 22 peer-reviewed changelists and created analytical dashboards for contract monitoring and template health tracking.

Projects

Code Fusion | *React.js, Flask, Express.js, MongoDB, Tailwind CSS* | [GitHub](#) | [Deployed Project](#)

- An online code editor supporting real-time collaboration, multiple languages, and customizable themes.
- Enables multiple developers to collaborate in real-time with live cursor tracking and integrated in-app chat for seamless communication.
- Integrates auto-completion, real-time syntax error detection, and persistent code-saving functionality, while offering various themes, multi-language support, and a collapsible sidebar for efficient file management.

JobPilot | *Python (FastAPI), TypeScript (Next.js), Langchain, WebSockets* | [GitHub](#) | [Video](#)

- Developed a full-stack automation system using **FastAPI**, **Next.js**, and **HuggingFace LLMs** to automate resume extraction and job matching, reducing manual application time by **80%**.
- Architected a scalable background worker system with **asynchronous processing**, **WebSockets** for real-time updates, and **FileLock** synchronization to manage concurrent multi-user job lifecycles.
- Built an **LLM-powered** pipeline using **prompt engineering** for job ranking and categorization, featuring a manual review workflow and a local mock portal for safe system validation.

NoteBridge | *React.js, Express.js, MongoDB, Bootstrap* | [GitHub](#) | [Deployed Project](#)

- A **feature-rich note-taking and sharing platform** that enables **structured organization** through folders and facilitates **controlled file sharing**.
- Enables **interactive engagement** through features like **likes**, **comments**, and **shares**.
- Provides a **comprehensive profile page** displaying total posts, followers, following, and an **organized archive of past posts** for easy access and engagement.

Technical Skills

AI/ML & Agents: LangChain, LangGraph, TensorFlow, Keras, Deep Learning, ANN, CNN, LSTM.

Technologies: Node.js, FastAPI, Express.js, Docker, Next.js, React.js, Tailwind CSS, Three.js, GSAP.

Database & Cloud: MongoDB, PostgreSQL, Vector Databases.

Achievements

- Secured **4th rank** at **HaXplore | CodeFest'25**, organized by **IIT BHU!**
- **Winner** - of Winter Of Code 6.0 (in Web Development Division) a one-month long hackathon conducted by **CyberLabs**, IIT(ISM) Dhanbad. | [Deployed Project](#)

Social Engagements

- Member of CyberLabs -Tech society of IIT ISM Dhanbad
- Member of Aquatics Team - Swimming Team of IIT ISM Dhanbad.
- Represented IIT Dhanbad at the 37th INTER IIT AQUATICS MEET 2023 held at IIT Gandhinagar and secured **4th place** in 200m Individual Medley .
